<div>Hi @Connor Nolan Dean whitelisted the FTX account for USDC & CEL but was out of time to send the first test transaction. Would you mind sending a first test first and the rest later? Thanks</div>

<div>And Alex wants to buy only equivalent of half of what we need to buy and take the rest from the treasury (no matter what we call the purchase) so let's make sure, to keep the low profile for now, we do that. Please confirm</div>						
<div><div></div><div>Harumi Urata-Thompson</div></div>					2021-03-21 04:03:02.003 PM	
<div>If you don't do this and Alex finds out, he probably will get rid of me for insubordination. Not sure if it matters at this time but if you want me sticking around a bit longer, please help me</div>						
<div><div></div><div>Harumi Urata-Thompson</div></div>					2021-03-21 04:03:09.003 PM	
<div>and whatever happens, will happen</div>						
<div><div></div><div>Johannes Treutler</div></div>					2021-03-21 04:09:22.003 PM	
<div>Yes sure. We will discuss details later</div>						
<div><div></div><div>Harumi Urata-Thompson</div></div>					2021-03-21 04:11:27.003 PM	
<div>great. Then I will confirm with Alex (and Yaron) and we will make sure that we will keep it to 50% for the foreseeable future</div>						
<div><div></div><div>Johannes Treutler</div></div>					2021-03-21 04:44:34.010 PM	
<div>Just to clarify between us three: The last 3-4 months we bought always more CEL than what we pay as interest per week but we did not buy it for the interest payments, that was just what we told the community. The last months we hedged 25-50% of the OTC sales on exchanges, that's why we bought CEL. A normal OTC desk would buy 100% on exchanges and markets are driven by supply and demand as usual. We only bought 25-50% and put the other 50-75% into our pocket as Cash. We were aware it puts pressure on markets. But as long as we bought at least 25% of the OTC sales back on exchanges we kept markets healthy enough...</div>						
<div><div></div><div>Johannes Treutler</div></div>					2021-03-21 04:45:11.013 PM	
<div>I will follow what they want and make sure we buy halt the interest payments on exchanges. 100%</div>						
<div><div></div><div>Johannes Treutler</div></div>					2021-03-21 04:47:27.017 PM	
<div>But I will also let them know that I expect our OTC Cash proceeds to drop by 50-90% if we buy less and less .. especially if Alex keeps selling 30-45k CEL a day (I pinged Roni twice a day since a week to bother him to end this .. but it's still happening ... and today was the first day where the main community got aware of it on social chats .. the weeks before it was just whale chats from OGs.)</div>

HHow much do we have in Main? Let's use what we can find. Johannes was under the impression that we don't have CELs that we can just send around anymore so I was considering the option before we completely go dry in the transit/main

Connor Nolan 2021-03-21 11:08:21.027 PM
we have in main but thats a mix of customer funds

Harumi Urata-Thompson 2021-03-21 11:08:53.027 PM
ah that kind of main

Harumi Urata-Thompson 2021-03-21 11:09:19.027 PM
ok, so that, let's have Johannes opine. I think he might be talking to Jonathan right now actually

Harumi Urata-Thompson 2021-03-21 11:09:38.027 PM
And then I am sure he will see this message @Johannes Treutler

Johannes Treutler 2021-03-21 11:40:59.030 PM
I'm out of time yet to read all messages above - but: please only send 250k CEL today .. we need to fill up slowly so the community does not see us moving large CEL bags to exchanges if you agree

Connor Nolan 2021-03-21 11:41:47.030 PM
the issue is what cel we can send plz read it if able

Connor Nolan 2021-03-21 11:41:52.030 PM
and i need an address to send to
